

The BMIC Biology Department is looking for new designs to create outreach materials, such as stickers and magnets. There will be four categories: Fisheries, Wildlife, and Forestry for adults, and an overall Children's Category (up to and including grade 8). The species may be selected from the lists provided below or you may choose your favorite native species.

One entry is allowed per person and winners will be decided by the BMIC Tribal Council. The winner for each category will be awarded an Outdoor Adventures prize pack.

All entries must be submitted in PDF format to gsanchez@baymills.org, or may be submitted in person to the Biology Department, by midnight on Wednesday **September 30th**. A winner will be announced on Wednesday **October 14th**.

Fisheries Species

- Whitefish
