The Executive Council is very excited to share that our Elder’s Housing Project is nearly complete. By the end of November, eight beautiful elder's homes will be nestled along Spectacle Lake for our elders to enjoy their glory days.

This project began in 2019, and was possible thanks to the U.S. Department of Housing and Urban Development tribal housing program. Owned by Bay Mills Indian Community, the Elder Housing Project will serve our Tribal Nation for many generations of elders to come.

Long term development of the site will include an additional eight homes, handicap accessible kayak launch, outdoor communal gathering pavilion, gardens, and walking paths.

Chi miigwetch to our Grant Writing Team, Public Works Team, Bay Mills Housing Authority, Dick Timmer, Tribal Engineer, and subcontractors for all their hard work in building these perfect little homes. Each home was designed to have two bedrooms, one car garage, outdoor patio, and was built to be handicap accessible throughout.

**If you are a Bay Mills elder, age 55 years or older, you can contact the Bay Mills Housing Authority at 906-248-5524 or visit 3095 S. Towering Pines, Brimley, MI 49715 to inquire about an application.**
