INTRODUCTION

The intent of this publication is to provide a readily accessible means of identifying Tribal Wildernesses, Tribal Research Natural Areas, and Tribal Permit Areas along with associated regulations applicable to the Off-Reservation National Forest Gathering Code.

Tribal Wildernesses protect lands to be primarily affected by forces of nature, without human influence. Tribal Research Natural Areas protect lands to maintain biological diversity, allow for non-manipulative biological research, and foster natural history education. Tribal Vehicle Permit Areas are designated Forest Service lands which require parking permits.

The contents of this publication may be modified on occasion. Please contact the Biological Services Division or Policy Analyst of the Great Lakes Indian Fish and Wildlife Commission to confirm the most recent update.

TRIBAL VEHICLE PERMIT AREAS

REGULATIONS

Vehicles parked in designated fee sites must have an annual parking pass sticker placed on the lower passenger corner of the windshield. Tribal offices will provide information on obtaining these stickers free of charge. Annual parking passes are not needed to park or camp at the campgrounds listed below, as long as a tribal camping permit is being used (National Forest Campground Fee and Length of Stay Restriction - Exemption Agreement Sec 6.b). Tribal members need to display their camping envelop stub on the dashboard when parking in the designated campground.
